

SPACEDRIP

Water treatment robots
that reuse 95% of wastewater as pure water

WASTEWATER TREATMENT WITH HEAT RECOVERY SYSTEMS FOR MULTI-STORY HOUSES

Technology	Aerobic membrane bioreactor with activated sludge
Capacity	80-500 people (6.4-45m ³ greywater/day)
Water reuse options	Irrigation, toilet flushing, laundry technical reuse
Heat recovery	Up to 95% of heat from greywater recovered
Save up from communal and water heating bills	30-60% per month
Return on investment (ROI)	5-20 years
Automation	Automated chemical and mechanical processes, 7 monitoring sensors
